**CONTAINER GRAPHICS ANNOUNCES NEW CORPORATE CUTTING DIE
PRODUCT MANAGER**

CARY, NC (July 21, 2016) – Jeff Bunge, a 28-year veteran of Container Graphics Corp., has been promoted to the new role of Corporate Cutting Die Product Manager and will be a member of the company’s Corporate Engineering and Manufacturing group.

In an internal announcement, Scott Bowen, Corporate Engineering and Manufacturing Manager, stated that, “CGC continues to make gains in new technology, the standardization of our cutting die products, as well as in the support of our customers. This promotion will allow Jeff to spend more time with each region to move this initiative along further and faster. Jeff started at CGC in 1988 as a flat die maker. He was promoted to Technical Manufacturing Consultant in 1999 where he developed the role into what it is today. This position has since been replicated across the company. Through all this, Jeff has earned high respect as a technical expert within CGC, and also with our customers, suppliers and OEMs across the globe.”

Jeff lives in Michigan with his wife Holly and has 5 adult children. In his spare time, Jeff enjoys spending time with his family at the sand dunes of Western Michigan.

Container Graphics Corporation is one of the world’s largest combined manufacturers of printing plates and cutting dies for corrugated packaging production. The company maintains its corporate headquarters in Cary, NC (USA), and operates 17 facilities worldwide.
